

## Storage Cabinets

Fumair manufacture a range of chemical storage cabinets, primarily designed for standing beneath our laboratory fume cupboards, but equally suitable for placing below benching and similar equipment.

The storage cabinets are of a welded, white polyester coated steel construction and incorporate a removable, multi-position shelf, lockable, hinged doors and a ventilation point to the rear for connection to an extraction system.

Optional extras include:

- Fire dampers and intumescent door seals
- Polypropylene drip trays
- Polypropylene or lead linings
- Castors (lockable)
- Ventilation hose
- Door grilles

Bespoke sizes available on request
